As there are often other groups booked in to the Bobsled and Leisure centre it is very important to arrive at your scheduled activities on time assure your group does not miss out.

Information:

It is **essential** that all participants have waterproof gear as the weather in the mountains can change quickly. Thredbo Sports at Valley Terminal has a range of waterproof jackets and pants available for hire, there are large numbers available for school groups.

Many students are not properly equipped for a walk in the alpine zone. It is essential that teachers make everyone aware how quickly the weather can change and to be prepared for any conditions. Blizzards and cold winds at below zero temperatures are not uncommon in summer in the mountains. These conditions can be enjoyed if people are properly prepared. The guides make the final decision on whether anyone is not properly equipped for the day, which may result in a student having to miss an activity.
